### This is the "Thornhill" Wagon—the Wagon that Must Make Good

The best known materials—the labor of master workmen—the aid of the most ingenious modern machinery have been employed to make the Thornhill wagon.

The wheels are made with excessive care. For the spokes the manufacturers use the finest hickory—machine driven to insure the right dish. The hubs are of oak, thoroughly seasoned and banded with double refined sable iron.

The holsters are of the best white oak. They have an iron plate at top and bottom, riveted through and through—multiplying their strength.

The "Thornhill" has a malleable front hound plate that is braced to the hounds at all points. This is an exclusive "Thornhill" feature. It prevents the

gears from ever getting out of line and causing hard pulling.

"Thornhill" wagons are equipped with long sleeve malleable—non-breakable skains that insure light running, and outlast any other skain. Each skain is fitted to its axle with a DeLance machine—infallibly accurate. This machine insures the right pitch and tuck, makes light draft a certainty.

The axles are of toughest hickory—the steel axles of the best refined steel. The sides of "Thornhill" beds are made of poplar. It costs the makers more—but it holds paint better and gives better service.

Come in and see this wagon—sold under a binding guarantee.

W. R. Hanson, 30 from Farris Sandidge 30 from Bev Sandidge, 29 from D. O. Lewis, 28 from W. C. Gilmer, 13 from Stewart Hanson during the week, for which he paid an average of seven and three-quarter cents; Dave Allen bought large hunches from Stewart Hanson, Bud Dunn, Tom Gooch, Clarence Tomblis, Joe Newell and Dr. J. C. Barker, paying about the same figure for most of them.

S. H. Baughman's fine young draft stallion John Cook, which is being stood by W. B. Gover, near Hustonville, was badly injured last week, by sticking a snag into his breast. For a while it seemed that the horse was severely injured, but Mr. Gover says he is recovering nicely now.

#### Horse Gossip from Madison

The Saddle Horse Chronicle's Richmond correspondent had the following interesting equine gossip from Madison last week:

It seems that during this season this county has had more mares to lose colts than ever before in her history. This complaint is also heard from all over the state in general.

The black mare Elite by Rex Peavine and out of a dam of Chester Dare, foaled a stud colt by Bourbon Phelps by Bourbon King and out of a dam of Chester Dare, which when two days old, Mr. T. E. Baldwin, Jr., has five extra nice colts by his famous young horse, Peavine's Best, by Rex Peavine and out of a dam of Montgomery Chief, and two of these are said to be almost undefeatable. This young horse is not only proving himself a show horse, but a sire of the first rank, and one of the very foremost sons of the celebrated Rex Peavine. Hallic McGee 6001 by Kentucky Squirrel and out of a dam of John Wax 100, second dam a dam of Peavine 85, foaled a chestnut filly by Jack Twigg on the seventh. This colt was being watched by several and it proved to fill the highest expectations concerning it. Several prominent horsemen who have already seen it pronounced it to be the finest colt they had ever seen. Hallic always breeds like the sire and this filly greatly resembles her famous sire, Jack Twigg, by Rex Peavine and out of Gladys by Chester Dare—once said by George Ford Morris to be the living ideal of the saddle horse world and to-day holding his place as a young horse by the side of Bourbon King, Rex Peavine, Kentucky's Choice and Montgomery Chief. The bay Jack Twigg filly out of the Red Squirrel mare, the property of Mr. J. H. Shearer, the breeder, of the great Rexall Prince resembles the above

filly. J. B. Castles, of New York, is breeding two extra good Highland Denmark mares to Rex Peavine, each mare now has a good foal at side also by Rex. James Hockaday's Montgomery Chief mare has another stud colt by Rex, his colt being a full brother to Mr. Baldwin's Peavine's Best. This colt, however, seems just now to be a little small. Mr. W. M. Jones, of North Middletown, has just sent two mares to Rex, each with a colt at side by Rex. James says they are two extra fine colts, and one of them, out of a full sister to Bourbon King—the best colt upon which he ever laid his peepers on.

Something was said in this column regarding the two-year-old stud colt, Kentucky's Ideal, being such a "spell-binder" and something was also said elsewhere in this paper once or twice regarding the horses now in Cohen's hands—each and every one well—Kentucky's Ideal is now in the stable "nutty-nd."

#### A Big Wheat Field Story (Kansas City Star)

Lost in a 1,200 acre wheat field, with the wheat extending above his head so that he could not get his bearings, Daniel Erni, a Rush county farmer, wandered all afternoon and far into the night before his shouts for help brought him relief. The story was brought to La Crosse today by Frank Wesley, a ranchman of Rush county. He explained the wheat stands more than five feet tall and it is easy for a man to lose himself in a field. "Erni is not a very tall man, and the wheat extended above his head," said Wesley. "He lives in Bison and drove out into the country to take a look at his wheat. Leaving the car at the side of the road he entered the wheat, penetrating some distance, closely looking for traces of Hessian fly or rust. He wandered all

afternoon, going in what he thought was a straight line, expecting to strike the opposite side of the field, but he evidently was moving in circles. Darkness came and he was still in the denseness of the wheat. This particular field included nearly 1,200 acres and adjoined other fields not separated by fences, so a man could go for miles without leaving the wheat thicker.

"It was about 10 o'clock at night that his car was discovered and searchers went into the wheat suspecting that some one was lost. They heard the faint cries of the almost exhausted man finally discovered him."

#### Horses Sell for \$2,000 Average

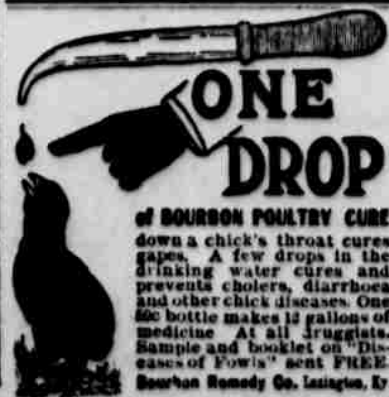

An average of over \$2,000 was received for the seventeen head of horses in training sold Thursday in the paddock at Belmont Park, the property of J. L. Holland, of Lexington, who is retiring from the racing sport. The highest price of the day was paid for the crack three-year-old Gainer, which went to Harry Payne Whitney, for whom Trainer James Rowe bought the colt at \$12,500. The second best price was paid for his two-year-old brother, Hanover, which went to W. R. Cow at \$7,100. The veteran race horse Donald McDonald, aged eight, a winner of several years past, was third on the list at \$2,100, at which price also the Martinet colt Gallop was knocked down. A majority of the horses in the sale were the get of Martinet.—Lexington Herald.

#### Crushed to Death

Gus Warren, 35 years old, of Elizabethtown, was instantly killed at Bethelton Academy. He attempted to drive an automobile truck beneath a low archway at the academy and his stomach and breast were crushed between the archway and a number of boxes on the truck. The unfortunate man died instantly. Owing to the accident the Bethelton commencement was postponed for this year. Mr. Warren is survived by his mother, Mrs. L. Warren, and one sister, Mrs. Arlie Kinhead, both of Eddyville, and two brothers, John Warren, of Kansas, and Frank Warren, of St. Louis, Mo.

Fifty members of "Gen." Kelley's "army," convicted at Grafton, W. Va., will be put to work on the county roads.
